

## Important Please Read!

Thank you for staying at The Redwoods In Yosemite. We would love nothing more than to be able to offer our full service and access to all amenities, however compliance with CDC, CalOSHA and the local health department is mandatory. The below measures are designed to keep you safe during your vacation.

**IMPORTANT REMINDER** - You will need to have a valid ID and a credit/debit card to pay the park entrance fee at the gate! No check, cash or mobile payments are accepted at the park entrance kiosks. Yosemite National Park day-use reservations are NOT required for Redwoods guests.

We do not allow early check-ins or late check-outs.

Our rental agreement will be stapled to your welcome packet, please sign and return to the dropbox labeled “rental agreements”.

Public laundry services will not be available. If your home is equipped with a washer & dryer, they will be available for you to use.

Please maintain social distancing protocols by contacting us by phone at 209-375-6668 or email at [INFO@REDWOODSINYOSEMITE.COM](mailto:INFO@REDWOODSINYOSEMITE.COM)

All of our homes have heating units if you need some extra warmth at night. Please note that fireplace use is prohibited during the summer months.

Upon departure:

- Please load the dishwasher with dishes and utensils before checking-out if your home is equipped with one. If your home does not have a dishwasher, please hand wash your dishes, utensils and cookware prior to departure.
- Please place all used remaining cookware in the sink before you depart.
- Please do not place any cookware and dinnerware in any of the kitchen cabinets.
- Please leave the home tidy, report breakage and/or maintenance needs to our front desk team.
- Please discard your trash bags in the outside dumpsters. Dumpster bins locations can be found on our [cabin map](#).
- Please drop your cabin keys inside of the white key drop box located at the entrance of our main office on 8038 Chilnualna Falls Road, Wawona, CA.

**IMPORTANT:** If you, or anyone in your party shows Covid-19 symptoms 14 days or less prior arrival, please contact us immediately!

## COVID-19 Warning

Though The Redwoods In Yosemite has taken enhanced health and safety measures for our guests and employees an inherent risk of exposure to COVID-19 exists when staying in any vacation rental. COVID-19 is an extremely contagious disease that can lead to severe illness and death. According to the Centers for Disease Control, senior citizens and guests with underlying medical conditions are especially vulnerable.

By staying in one of our cabins you and all members of your party voluntarily assume all risks related to exposure to COVID-19

Please follow these important CDC guidelines:

## How to Protect Yourself & Others

### Know how it spreads

- There is currently no vaccine to prevent coronavirus disease 2019 (COVID-19).
- The best way to prevent illness is to avoid being exposed to this virus.
- The virus is thought to spread mainly from person-to-person.
  - Between people who are in close contact with one another (within about 6 feet).
  - Through respiratory droplets produced when an infected person coughs, sneezes or talks.
  - These droplets can land in the mouths or noses of people who are nearby or possibly be inhaled into the lungs.
  - Some recent studies have suggested that COVID-19 may be spread by people who are not showing symptoms.

### Everyone Should:

#### Wash your hands often

- Wash your hands often with soap and water for at least 20 seconds especially after you have been in a public place, or after blowing your nose, coughing, or sneezing.
- If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol. Cover all surfaces of your hands and rub them together until they feel dry.
- Avoid touching your eyes, nose, and mouth with unwashed hands.

#### Avoid close contact

- Avoid close contact with people who are sick, even inside your home. If possible, maintain 6 feet between the person who is sick and other household members.
- Put distance between yourself and other people outside of your home.
  - Remember that some people without symptoms may be able to spread virus.
  - Stay at least 6 feet (about 2 arms' length) from other people.
  - Do not gather in groups.
  - Stay out of crowded places and avoid mass gatherings.
  - Keeping distance from others is especially important for people who are at higher risk of getting very sick.

### **Cover your mouth and nose with a cloth face cover when around others**

- You could spread COVID-19 to others even if you do not feel sick.
- Everyone should wear a cloth face cover when they have to go out in public, for example to the grocery store or to pick up other necessities.
  - Cloth face coverings should not be placed on young children under age 2, anyone who has trouble breathing, or is unconscious, incapacitated or otherwise unable to remove the mask without assistance.
- The cloth face cover is meant to protect other people in case you are infected.
- Do NOT use a facemask meant for a healthcare worker.
- Continue to keep about 6 feet between yourself and others. The cloth face cover is not a substitute for social distancing.

### **Cover coughs and sneezes**

- If you are in a private setting and do not have on your cloth face covering, remember to always cover your mouth and nose with a tissue when you cough or sneeze or use the inside of your elbow.
- Throw used tissues in the trash.
- Immediately wash your hands with soap and water for at least 20 seconds. If soap and water are not readily available, clean your hands with a hand sanitizer that contains at least 60% alcohol.

### **Clean and disinfect**

- Clean AND disinfect frequently touched surfaces daily. This includes tables, doorknobs, light switches, countertops, handles, desks, phones, keyboards, toilets, faucets, and sinks.
- If surfaces are dirty, clean them. Use detergent or soap and water prior to disinfection.
- Then, use a household disinfectant. Most common EPA-registered household disinfectants will work.

### **Monitor Your Health**

- Be alert for symptoms. Watch for fever, cough, shortness of breath, or other symptoms of COVID-19.
  - Especially important if you are running essential errands, going into the office or workplace, and in settings where it may be difficult to keep a physical distance of 6 feet.
- Take your temperature if symptoms develop.
  - Don't take your temperature within 30 minutes of exercising or after taking medications that could lower your temperature, like acetaminophen.
- Follow CDC guidance if symptoms develop.

**Enjoy your vacation and let's keep each other healthy and safe!**
